Reactive agent

acts when asked

Proactive agent

acts before being asked

Inside the proactive agent

five stages run without a new request; Adaptation tunes all of them

1 Aware

Continuously monitor context

2 Anticipate

Identify / infer gaps between current progress and intended state

3 Agenda

Generate candidate goals to address gaps

- ☐ Draft report
- ☐ Update charts
- ☐ Prepare summary
- ☐ Review data
- ☐ Schedule meeting

4 Arbitrate

Decide whether initiative is worthwhile, timely and safe

5 Act

Suggest, assist or execute before being asked

outcome & feedback

6 Adaptation

learn from outcomes and feedback
